Economics provides a background and educational base that open a broad range of professional, educational, and vocational opportunities. As part of a Humanities and Social Sciences degree, a bachelor of arts degree program in economics provides a liberal arts education, as well as professional and technical training. Indeed, many students completing an undergraduate major in economics do not pursue careers as professional economists; a large number of possible careers.

Three different degree programs are available: a bachelor of arts program in economics that prepares students for immediate employment or graduate school; a bachelor of arts degree program in economics/pre-law for students who wish to attend law school; and the bachelor of science in education degree that prepares students to teach economics and other social sciences

Total Degree Requirements: 120

(1) MATH 115 or 125 may be substituted for MATH 121.

(2) Intermediate-level foreign language may be included in Liberal Studies electives.

(3) MATH 214, 216, 217, or 363 may be substituted for ECON 355.

(4) No more than 6cr of internship credit may be applied toward major.

(5) No more than two ECON controlled electives may be 200-level courses.

(6) Neither 101 nor 143 counts as ECON controlled elective.
