As a result of this campaign, a higher percentage of students registered earlier in the semester than in the three previous spring registration periods. Between November 1 and the end of the fall semester, we averaged almost 6 percentage points higher in undergraduate registrations as compared to the previous four years as a percent to final spring registration and the final spring 2023. The various activities continue to be assessed for effectiveness and to refine efforts or outreach to students for summer and fall registration,

IUP is currently in the implementation stages of a new student success infrastructure that utilizes both technological and human resources to provide pro-active and personalized outreach to students in all facets of their university experience.

Further development is needed for several unit reorganizations to improve efficiency and effectiveness in serving students. Strategies for work expectations, workload, and business processes to reduce personnel expenditures, particularly when positions become vacant, are also in development. As positions become vacant, they will be reviewed and analyzed for the possibilities of sharing functions, streamlining tasks, improving operations, understanding duplication of work, and making better determinations of how to move forward. Over \$850K in non-faculty personnel savings have recently been identified for FY2023-24 by taking this newer approach.

We continue to work towards a more streamlined, narrower, simpler overall organizational structure and business processes at the university1.4 (ea3wu -4 ()-17.1 (pr) S.4 (2)--6.1 (w(es)-4 (s)-211.5 (,)-)-4 (i)-9 (y1.4 (e)-6.1 (n)-17 (g f)-19.1 (h)-17e21.2 (av)-.9 (gr)-19.1 (h)-17e21.2 (av)-.9 (

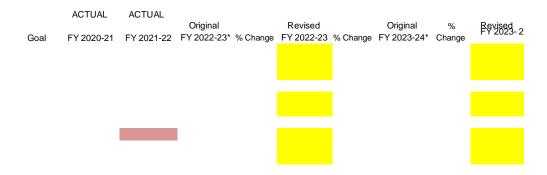

Confidential Working Document: The information in this review is meant for internal use only.

There are no recommendations for follow-up activity for this reporting period. [Because enrollment projections were not met, a mid-course correction action plan and updated projections should be submitted by]. [Because sustainability plan actions were not achieved].
